

TargetMol® (TARGETMOL CHEMICALS INC.) specializes in products and services that serve the research needs of chemical and biological scientists worldwide.

Headquarter in Greater Boston Area, MA
Global logistics covering Europe, North America & Asia-Pacific Area

TargetMol® provides :

- 170+ compound libraries
- 12,000+ inhibitors
- 16,000+ natural products
- 20,000+ bioactive compounds

Activators, peptides, antibodies, novel life-science kits, etc.

Compound synthesis and CADD services

Products & Services

Products

Compound Libraries

Clear Classification

170+ libraries
Detailed information

Continuous Update

Customization

Inhibitors

High Coverage

12000+ products
500+ new compounds/month
23 signaling pathways

High Quality

HPLC
HMNR

Cost Effective

Save funding

Reagent Kits

Protease Inhibitor Cocktail

Phosphatase Inhibitor Cocktail

CCK-8

Services

Compound Synthesis

Laboratory of Medicinal Chemistry

Well-equipped for small-molecule inhibitor production and Quality Control

CADD

Large Database

>10M Structures

Lead by Professional

10+ year experience

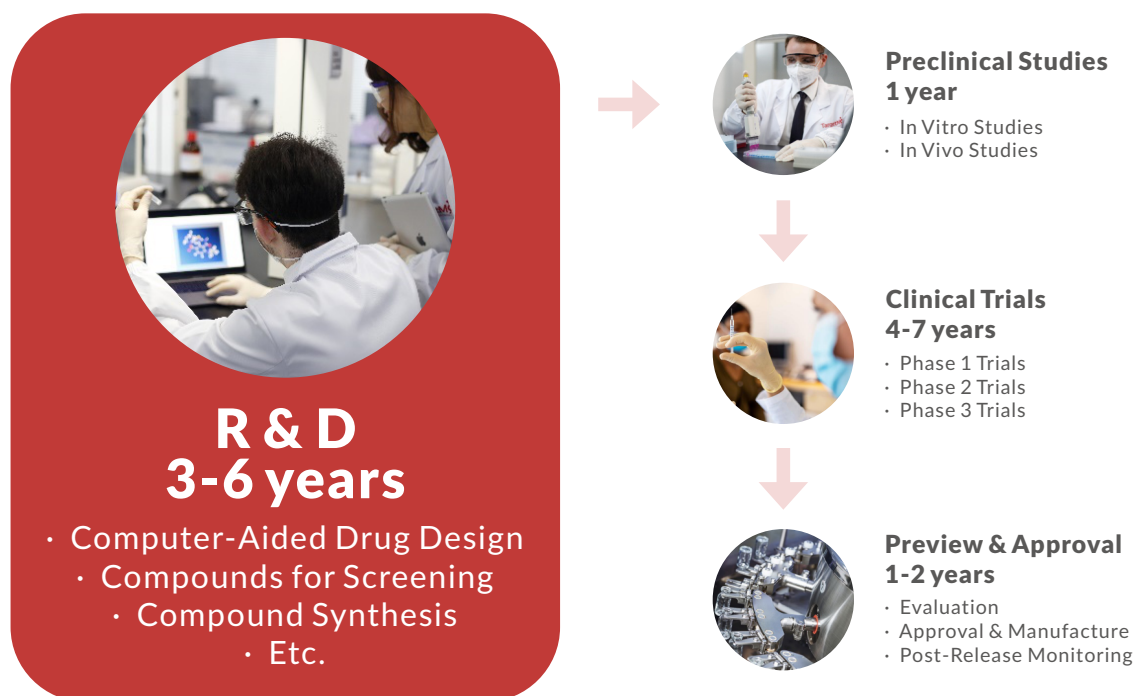

Lower Cost

Saves time & Money
Holistic database
Purchase product directly

TargetMol® Solutions for Drug Discovery

TargetMol® strives to accelerate the Research & Development process in drug discovery by our products and services

Why TargetMol® ?

Competitive Product lines

constantly updating database
expanding product lines
customizable products

Quality Control

accurate structures by H-NMR
high purity by HPLC

Global Logistics

> 60 distributors
> 40 countries
24-7 customer service

Cost-Effectiveness

one-stop service
established compound libraries
large, ready-to-use database
excellent stock availability
